

## MICHAUD EXPORT proposes a complete range of **earth systems** ! Compose your system according to your needs

### Earth electrodes

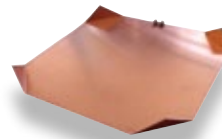

#### Ground terminal in depth

Copper bonded steel earth rods  
50 to 350  $\mu\text{m}$   
 $\varnothing 12.7, \varnothing 14, \varnothing 17.2$

#### Ground terminal in surface

Copper earth plates  
500x500mm, 500x1000mm

A technology adaptable to your needs and the ground nature.

Rod nature	Conductivity	Service life	Corrosion resistance	Competitiveness	Mechanical resistance
Copper bonded steel	+++	++	++	++	++
Stainless steel	+	+++	+++	+	++
Galvanised steel	++	+	+	+++	++

### Earth conductors

#### Bare or insulated twisted cables

Copper  
Section from 10mm<sup>2</sup> to 300mm<sup>2</sup>

#### Tapes

Copper, copper bonded steel, tinned copper bonded steel  
Section from 60 to 160mm<sup>2</sup>

### Connectors

#### Connection between a conductor and an earth rod

Brass «U» bolt clamp

Stainless steel cruciform clamp

#### Connection between two conductors

Copper connector

Fixing

Tap connection

Equipotentiality

Brass jumping clamp
